If I could give Billy 10 STARS I would! Billy is in charge of all the electrical work in my first investment property. His electrical work is fairly priced, well executed and done efficiently, but that's not why he stands out from the rest. I can't tell you how many general contracting lessons I've learned from him. He has gone WAY beyond what I am paying him for. He's saved me headaches and money in so many different places. I hope to have a long real estate investing career and I'll never use anyone but Billy. He will save you time, money and headaches.... I highly recommend him for your electrical needs!

EXCEPTIONAL! We hired Double Diamond Electric via Amazon to remove a fan we bought that did not work well. The previous electrician we hired hung the fan all while breaking 2 parts and left a complete mess behind including screws, nuts, and bolts on my patio for my dogs and children to walk on. When the fan did not work properly we found BILLY at Double Diamond. we were LUCKY! He was ON TIME for his window of 8-11 (even arrived right at 8 AM). It is SO APPRECIATED when your technician arrives at the front of a window not the end so you don't waste your day. He was very polite and well mannered & definitely knew the profession! Not only did he remove the fan but he also put every single piece back into the original box in its original wrapping! We did not even ask him to but he did because he knew we wanted to return it to Amazon. We were so impressed we will be hiring Billy to do some other jobs around the house. Also his office called a few days in advance to confirm the appointment and also to see if we had any questions prior to his arrival. I don't write a ton of reviews on Yelp but I think Billy at Double Diamond was a superior electrician and we will MOST DEFINITELY use him again! He cleaned up his work before he left to complete perfection. You can tell when a person truly cares about the work they do and the people who really want to do a good job for their customers! Double Diamond is 10 stars!
